Git Cheat Sheet

Start / Clone

```
git init                  # Start Git
git clone <url>           # Clone repo
```

Checking

```
git status                # Changes
git log --oneline         # History
git diff                  # Differences
```

Save & Push

```
git add .                 # Stage all
git commit -m "message"   # Commit
git push                  # Push to GitHub
git pull                  # Get latest
```

Branches

```
git branch                # List
git switch main           # Switch
git switch -c feature     # Create + switch
git merge feature         # Merge
git branch -d feature     # Delete
```

Git Cheat Sheet

Undo

git restore <file> # Undo changes

git restore --staged <file> # Unstage

git reset --hard HEAD~1 # Undo commit + changes

Remote

git remote -v # Show remote

git remote add origin <url> # Add remote

First Push

git init

git add .

git commit -m "Initial commit"

git branch -M main

git remote add origin <url>

git push -u origin main

Daily workflow

git pull

code...

git add .

git commit -m "message"

git push
